

# CLEAN AIR

## HEALTHY COMMUNITIES

Friday, September 24th, 2021

To the Environmental Quality Commissioners and the Oregon Department of Environmental Quality Staff,

The undersigned groups appreciate the opportunity to show our support for the immediate adoption of both the *Advanced Clean Truck* rule and *Heavy-Duty Omnibus* rule in Oregon this November. We are counting on you to lead Oregon in this transition in order to reduce the public health impacts on Oregonians and ensure our state achieves its greenhouse gas reduction targets in the transportation sector.

Thank you,
